

2021.May.27.

Dear Andrea,

It was a pleasure to have our discussion with you last night. That being said, I wish to continue to talk to you about your charades. Your method for confronting a contentious problem is called gaslighting, a term that I will be dedicating a webpage to shortly. It was very offensive to hear you tell me to “Stop listening to the propaganda.” Well, I am more than willing to discuss the facts of the matter on camera, on T.V. in the Hungarian language, and with anyone who wants to argue their fiction over the facts (not my facts, just the facts).

I am a communications instructor and a successful enough one at that. For every statement you’ll need to provide clear and concrete evidence, with references when you can or have time for. I have a page dedicated to the corona virus at MediaAccess.hu:

Kezdőoldal > Hallgatói sarok > Safety, Health and Security > Gyakori Kérdések a (Corona Virus) Koronavírusról - Szakértő válaszol | VIBES

With your lack of knowledge and lack of willingness to discuss and share information, I doubt that you’ll be willing to talk about this further, but the evidence is enormously clear that IT IS YOU WHO IS FOLLOWING THE GOBBLEDYGOOK, NOT I. I never tear down my confronter in such a way as you, even if they are disingenuous to the core, unless they attack my person.

The science is on my side, the hogwash is on yours.

I don’t know where to begin with your assessments. Some very basic knowledge of some very basic understandings of some very basic empirical evidence concepts will lead you to at least, if not in depth, cursorily review some very fundamentals that I have to share. I didn’t ask you anything specific last night because you brushed me away so quickly and without regard to truth that I can assume that your harsh reality would come to a screeching halt if you were to be enlightened about some very basic realizations—if you were able to awaken from your stupor—regarding how little you believe you have learned about some basic matters.

Without further ado, maybe you could start with these in order; MediaAccess.hu:

1. The Corona Virus Explained to Children - pdf file
2. The Corona Virus Scam - pdf file (More than 330 links, mostly videos—all of which I’ve reviewed, most all of which are of a scientific nature, with hundreds and thousands of doctors worldwide who support the evidence-based science, some one-sided arguments I’ve had with students [mostly pathetic, but a great lesson on how not to argue—from their sides], invaluable flyers that share the disturbing trends within the Hungarian culture, and other relevant information), along with some scary stuff regarding what has been happening due to lockdowns around the world.
3. They Live Review - pdf file (a review of a documentary of the world of today that I wrote—Geology is mentioned!).
4. The Roots and Consequences of Fascism - pdf file (another document of the world of today—as well as yesterday).
5. The Blunt Truth About Vaccines - pdf file
6. A koronavírus és király - Problémák és megoldások - pdf file (a short essay I wrote that I was trying to share with you. Although it doesn’t specify the numerous flaws in your assumed implications in detail, it does dismantle some of your fundamental assumptions of your misinterpretations of logic with it.

7. If you don't do any other research, please listen to the Frontline Doctors. Here are a handful of links to help you along your way:
- a. [Frontline Physicians Aim to Dispel 'Massive' COVID-19 'Disinformation Campaign' on Capitol Hill "](#)
 - b. [American Frontline Doctors](#) (The banned video from American Frontline Doctors):

It's certainly your prerogative to follow the facts. Let me finish by remarking to the fact that Hungarians are descendents of two main groups: global communists (MSZP, Párbeszéd, Momentum, etc.) and national communists (a.k.a. national socialists [NAZIS]—well, you can argue all you want about that NAZI affiliation, but it's in the name). This is not to say that Hungarians in Hungary are exclusive in this dilemma, but it is to say that the world continues to go in circles without much care to understand why and how to get out of the vortex. I'm guilty just as well, but The Nazis and the communists have done the social distancing, isolations and injections, like, forever. Why is this important to mention? Because it is this very mentality that has been passed down from generation to generation and it is the same baffling format that dominates our culture today—it's quite relevant.

Stay stuck on stupid or learn some facts! If you want to talk to me about it, you'd better know what you're talking about, because I do! I also have several pages dedicated to the "global warming fraud" that you can search for on my site. I teach these things. Don't believe me about any of it! Do your own research, but I know you haven't done it and probably you won't—because "You're the smart one and I'm the stupid one?" —and that mindset is fixed in your mind.

Thanks in advance for learning to not continue with the malfeasance. Your stand is appallingly scary, frankly, and I hope you stay away from Győrfi Pál's soap opera and the constant mainstreaming of propaganda. It's one continuous push for an advertising of products, products that are not vaccines, but are "experimental biological agents." Your assumptions, which are commonly recognized as being true, are very harmful for this country as a whole! The chances of me dying of the corona virus (a.k.a. the common cold) are not strong—and although it can happen, wearing a cloth on both my intake and outtake breathing apparatus isn't going to do anything but harm; do that to your car and tell me how that works out for you.

You got an injection—WHICH PROTECTS YOU FROM NOTHING! You said it yourself. You'll have to get vaccinated (whatever's in it is anybody's guess) over and over and over again—unless you get a mRNA vaccine, like Pfizer, then it'll stay with you forever—poisoned forever! Oh, the joy of it all! In summary, a vaccination is, by its very nature and definition, a poison—and you're poisoning your nation with ignorance.
