The polls are wrong....the new one contained 1,001 people. Hardly representative.....

For people who voted for Donald Trump, as a rookie outsider with normal human flaws they are happy that in 6 months he killed TPP, he killed Paris Accord, he created more religious freedom from the Fed Govt, he actually is reforming The VA, signed Congress passed bill holding VA employees accountable finally, liberated Mosul from ISIS, worked out a cease fire in Southern Syria, privatizing air traffic control in order to try to make it cheaper and quicker, formed a coalition of middle east countries against terrorism, as we saw with Saudi calling out Qatar already, Illegal immigration down 70% from this time last year, the vetting system for people entering the country and tracking them is now improving, Dow Jones on election night was 17,400 and today its 21,600, housing sales are going up, US Manufacturing index at 33 year high, changed the Mexico City policy on abortion, got healthcare thru the House, deregulated over bearing regulations on business and now if you want to add a regulation you have to take away two existing regulations, deregulating Obama job killing Climate change regulations, deregulated Fed Govt travel to allow for employees to use Uber, Lyft and other forms of alternative transportation, NAFTA has been agreed to be re-negotiated by Canada and Mexico, opened up China to US beef and natural gas, opened up India, So Korea and Poland to US natural gas too, gotten China to finally try to help with N Korea, has gotten a handful of European countries to up their payments to NATO, approved The Keystone Pipeline, approved the Dakota pipeline, got the CEO of Boeing and Lockheed Martin to publicly make statements about saving billions of dollars on contracts, slapped Canada with a tax for dumping lumber into the US illegally for decades, finally worked out a deal with trade over sugar with Mexico that had been causing problems for decades, manufacturing and mining jobs are both on the rise finally, implementing policies to make it more economic to "buy American, hire American", kicking MS13 gangs ass, sent Federal law enforcement in to south Chicago finally, cracking down on healthcare fraud, finally getting a Federal investigation into voter fraud in our elections, getting along with foreign leaders regardless of what liberal media says, stepping up protections for our countries law enforcement, rebuilding the military, actually defeating ISIS, cutting funds to sanctuary cities, placed a freeze on Federal Govt hiring, set policies to create 800,000 new jobs so far, and has had many large companies announce major investments in the US, exposing the media as the true propagandist Democrat Party they are – hence "fake news", beat Hillary Clinton and i really could go on and on... but most importantly....picked a judge for The Supreme Court that just wants to follow the law as written with the rumor of more judges retiring soon. All of this in a short time, with zero help from Congress.

He is going to pass the hardest of all legislation eventually – healthcare and then he will pass the biggest tax reform and tax cuts since 1986. All of this is going to happen.

He is doing and or trying to do what he said he would do.

All while the butt hurt elitist media is going 24/7 at him with fake Russia collusion as a major distraction. He is a rookie and an outsider and he will only get better and all the people who don't realize the achievements he has made and that have been "distracted" WILL BE BLOCKING TRAFFIC AGAIN WHEN HE IS RE ELECTED

no hassle (a blogger);

To all you losers, that say that Trump is silly, ignorant, uneducated, and just plain stupid. I'd like to remind you before you make a further fool of yourselves by trying to put him down. The man is a billionaire who builds skyscrapers all over the world. He is married to a super model and he beat the entire republican party, the "fake biased news," and Hellary Clinton. He is the President of the greatest nation on earth. He fly's around on his own private jet aircraft, and now, on Air Force One. Right now, he is in Europe and is meeting with the leaders of the world. His actions will determine the direction of western civilization, for at least the next four to eight years. He is exposing the news media as lying shills of the Illuminati. He has loosed the dog on the pedophiles that run the government and Hollywood. Since he was elected, thousands of pedophiles have been busted, and thousands of children have been freed from sex slavery. Some of them were actually being held in cages. The only people that should hate and fear him, are the Satanic Globalist Illuminati pedophiles, and their evil agents. And people that just hate America, the western world, and want us all to fail. I'm giving you liberal haters the benefit of the doubt, that you're most likely not truly evil, just ignorant and hateful. If he is "silly," what does that make "you," in comparison? He not only gave up his billionaire lifestyle to live in an "antique museum" of a house. A house that doesn't have "gold" plated toilets, (like he's used to), to serve me, and the American public, but also to serve "you," and the whole world. By making America Great again, he will make the rest of the world a better place as well. And all for what? To be called "silly," by little worthless and evil worms like you? No, my friend, compared to him, "you" are less than a loser. You're a stupid, moronic, worthless piece of shit loser.

"A rising tide lifts all ships." --John F. Kennedy

Good day, sir.

P.S. I've posted a variant of that speech at many sites around the web. I've gotten thousands of up-votes, and over a thousand replies to it. At least 99% have been positive. Most of the feed-back being along the lines of; "well stated Steve, you're brilliant," and my favorite; " Can I re-post this?" It has now been re-posted hundreds of times. When was the last time "anything" you've "ever" written been called "brilliant," or even mediocre? I am truly humbled, and that alone makes me way better than you. lol
